for the $20.00 you sent already, but here's thanking you again. I have been very busy lately with special classes at the hospital. We just moved into our brand new hospital and it has a lot of fancy new equipment. A lot of the new equipment is already having trouble running correctly but I guess there are always a lot of quirks to iron out in any new place. I am continually learning new things in nursing and how to take care of different emergencys. I have seen and done quite a bit lately in the emergency room. People come in with all kinds of conditions— from motorcycle accidents to heart

Thinking of you!

Dear Grandma,

Hi! Sorry I have been so long in writing to you. How are you doing lately? Fine I hope. I was sorry to hear about your car being stolen. I guess we all have some bad luck every so often. I think I thanked you

failure - and you have to know what to do right then. Luckily the doctors usually come pretty soon so you will know what to do. My main job is giving shots and pills to people which can be pretty confusing when you have 35 patients to take care of.

Well, I hope you are feeling well and are keeping busy with your activities.

Love,
Annie

Carolyn and the poops send their love.
