RE: Statements in the name of Sigma Pi Phi Fraternity

It has been brought to the attention of the Executive Committee of the Grand Boule of Sigma Pi Phi Fraternity that Archons have improperly spoken in the name of the Fraternity. The Executive Committee may sympathize and agree with the sentiments expressed and positions taken. However, it is imperative that statements that embrace the words "members of the Boule" or "organization" not be made, in as much as they imply adoption by the entire group.

If any statements or positions are to be taken, they should only be forthcoming from the Grand Boule office after the approval of the Executive Committee.
