Nothing exciting about me, Helen, but will fill in the news of my new life. I moved from San Diego to Oregon last year, and have family here in the Portland Metro area. I love the air, the flowers, the colors, the river, the people. Think this is where I will end up my life. However, not until I have made some more trips far afield, learned to play better bridge, conquered the "line dancing" steps, found a fishing buddy, and a few other things.

We had our Primary Election last month, and was pleased to learn that Linda Peters was running for Commissioner in my County, Washington. I was pleased because she is a grad of SDSU, class of '59. She made the run-off which will, of course, be in November. I didn't call our Alumni Office to find out what her maiden name was sorry to say.

Hopefully, I will be able to get down for the pre-50's celebration this year, and say hello to you and lots of other old friends.

Pat Bitter

P.S. Linda is a current County Commissioner but is running for the Head job.
