Mailed to Berry 10/9/75

CURE BOARD OF DIRECTORS

MINUTES OF MEETING OF 10/2/75

Dir. Pres: Berry, Deutsch, Gilloon, Greiner, Quinn, Swift, Taylor, Vickers.
Dir. Absent: Beam, Lloyd, MacInnes, McGuire, O'Byrne, Quessenberry, Senour.

The meeting was called to order by President Berry at 7:45. As there were corrections in the minutes of September, the following were made. Muriel Taylor was present and her name should have been included in Dir. Pres. Martha Vickers thinks, in order to clarify the request for tutors for Miller Elementary School, the minutes should have read-CURE will try to help find tutors by printing this request in the up-coming News Letter. Irene Greiner wants the minutes to include-a study on perscription drugs, given by a family Doctor, when a parent requests this on the advice of a teacher telling them their child is hyper-active and needs a tranquilizer. This seems to be a practice used from Kindergarten on to higher grade levels. After these corrections were discussed, the minutes were accepted. The report of the Treasurer was delayed, as we had two guests and they were pressed for time.

Thanks to Irene Greiner, Mr. Charles Amis came from San Bernardino to report on the Legislative Black Conference and Caucus in Sacramento, as he had attended. He was returning to San Bernardino immediately after his report. Mr. Marty Morris, from the City of San Diego Community Relations Department accompanied him. Mr. Amis said the attendance was excellent, including people from Northern to Southern California. Especially so, due to the poor economy at this time. Most of the people attending were concerned about matters in their own communities, and the good thing was, they all had a chance to express themselves. The pace is changing, to get more black people voting and interested in politics. Mr. Amis will compile more complete information and mail it to us. Each of us expressed our appreciation for their interest.

The report of the Treasurer was accepted as received. Several items of information were circulated and discussed.

Nominations: The committee had no success in their choice for a President, as each one nominated had declined. It is also necessary to nominate a Secretary, as Art Deutsch declined.

Reports: Berry reported that MacInnes and O'Byrne had accepted their appointment as an Ad Hoc committee to revitalize CURE. They each have the type of experience needed for this task--fresh ideas and different ways to publicize the organization.
Vickers reported on the News Letter--Many announcements and follow ups, but no lead article. Swift suggested a good lead article would be on 'red lining'. Quinn said the Urban League should have the information on this and that the new Industrial Park, in South East San Diego should be of interest to the readers.
Swift reported on the press conference on the Carlin case which he attended. It seems the news media asked only the question that would get the answers they wanted to print.

The meeting adjourned at 10:00.

Respectfully Submitted,
