CURE

CITIZENS UNITED FOR RACIAL EQUALITY

San Diego Unified School District. We need funds to have the school district maps which show the segregation patterns from 1966 to 1972 reproduced for use by community organizations and Citizens Advisory Committees as a community educational tool. The approximate cost would be $200.

Notes of interest:

When many organizations similar in thrust to CURE have disbanded CURE has been alive and active and able to maintain a constant membership. Response from readers has been that the newsletter is valuable in that it provides news that can't be acquired through other publications.

I think a positive point might be that we have functioned on a low budget and high return for the total dollars invested in the organization each year. (It would be interested to compare this organization with the budgets of other higher financed organizations and see what would be their rate of results.)

There is a terrific need for community education and human relations educational programs. We need to develop and expand our panels. Money could be used for professional training for the panelists to increase their effectiveness. Estimated cost for 30 people 6 sessions each is $1,000.

Barbara,

PLEASE contact me for any further information to help you. I'd like to meet with you and help you when you get this into more final form. Many of these things came out of my head and some from the financial records. That's why I didn't know how to just have Scott find them in the file. I don't think they were all there! When you do the final thing, maybe you should get the financial amounts for the entire fiscal year. I hope this will be of some help to you. Sorry it took so long to get to you.

THANKS FOR TAKING ON THE PROJECT OF RAISING SOME MONEY!!! Maybe we can get you some more help in the future. Marty Bloom told me of a couple books in the library we should definately read. One is a list of foundations and another is knowing and understanding foundations. If I can find the titles I'll send them to you. We have some people that know how to write proposals and when you get this finalized I think they will go over it with you and show you if there is anything else to include.

YOU'RE NEAT!
