Stefanie Lord
GRADUATE GEMOLOGIST

September 2, 1975

Dear Earl:

Enclosed you will find a card announcing the opening of my new offices. It might be helpful to you to know something about my background.

I began my apprenticeship in Europe in 1947, starting in Baden-Baden. From there I went to Dusseldorf where I worked for several years with two outstanding stores, first as sales manager for Rene Kern and then as manager of the West German branch of Georg Jensen, Copenhagen.

After coming to San Diego in 1954, I worked for J. Jessop & Sons and became manager, buyer and merchandiser of the gold and fine jewelry department for all five stores. I have received the degree of graduate gemologist from the Gemological Institute of America and have maintained offices as a gemologist since September 1973 in the Crocker National Bank Building. In the past two years I have traveled to the jewelry centers on the West and East Coasts and in Europe to acquaint myself with the current markets.

I will be pleased to hear from you whenever I can be of assistance, and by appointment will be happy to consult with you in your home or office.

Sincerely yours,

Stefanie

and my best wishes and congratulations to you and Bobbie!
