TOWARD MAN'S UNDERSTANDING OF HIS FELLOW MAN

This catalogue is offered as a resource for human-relations agencies, schools, social-action groups of churches and synagogues, civic organizations and individual citizens concerned with overcoming bigotry and improving man's understanding of his fellow man.

The American Jewish Committee, founded in 1906 to protect the civil and religious rights of Jews throughout the world, believes that human rights are indivisible, that denial of equal justice and opportunity to any group threatens the rights of all.

The Committee works with other responsible organizations, public and private, here and abroad, to uphold the right of every man to be judged on his own merits, not by his religion, color, birthplace or ancestry.
