October 1, 1971

San Diego County Board of Supervisors
1600 Pacific Highway
San Diego, California 92101

Dear Board Members:

CURE strongly supports redrawing supervisorial districts in such a way as to enhance the voting power of the minority community rather than fragmenting it. For San Diego today this means that as a minimum, the area known as Southeast San Diego must be included in a single supervisorial district.

CURE first stated this position in February 1971 in Los Angeles in an appearance before the Elections and Reapportionment Committee chaired by Senator Dymally. Our position has not only not changed, but has been reinforced by subsequent events. Every effort must be made to in no way diminish the right and the ability of minority citizens to express their needs and to influence government through exercising their franchise.

Very truly yours,

Mr. C. S. Swift
Citizens United for Racial Equality
