WHAT's BEEN HAPPENING?

CURE ANNUAL REPORT

Year Number 4

1971 1972

CURE ANNUAL REPORT
1971-72 fourth year

This annual report is offerred not with satisfaction in feats accomplished, but rather with hope for the actions undertaken. Were there victories during CURE's 1971-72 year? A few, perhaps, and possibly some whose impact is not yet fully realized. Were there defeats? Definitely. But the dim area between clear-cut victory and defeat may be worthy of the closest examination, simply because it is a much larger area than the others.

We felt, at the end of the year, that the spectacular and immediate were definitely not part of our accomplishment; but nevertheless, the members of the Board of Directors continue to feel that CURE performs not only a worthwhile but a very valuable function in the fight against racism.

We need the help of all concerned citizens to continue and expand our work; with more help, we might even shoot for a dramatic, impressive victory or two.

EDUCATION

°Met with education administrators about replacement of pre-Field schools on same sites and the perpetuation of segregation
°Urged board of education to take positive steps towards integration of pre-Field schools when planning for replacement
°Convened a community meeting concerning national anti-busing legislation
°Placed phone calls and sent letters to all legislators about the anti-busing legislation
°Formed a loose coalition of concerned organizations to keep informed on local integration problems and reports
°Responded to Superintendent's March Integration and Desegregation report by supporting the controlled balance plan.
°Alerted other organizations to respond to the Integration Report. The YWCA, Coalition of Urban Ministries, Ecumenical Conference, NASW and League of Women Voters all made statements concerning this report.
°Surveyed CAC's to find out if they had received and discussed the Integration Report
°Objected to plans in The Classroom Needs report which proposed continuation of separate student bodies when more than one student body is consolidated on one campus (an inner city school with a suburban school). Supported the proposal for a human relations program.
°Urged the human relations program be mandatory and that CAC's be informed of the benefits of integrated education
°Participated in the O'Farrell struggle to maintain an integrated school
°Attended State Board of Education meeting
°Met with parents concerned about movement of the gifted seminar program from Jackson to Hearst
°Provided 40 volunteers to research answers for questions in the Carlin case
°Made personal calls, met with, and had informal dinners with the board members in an effort to exchange viewpoints on current problems in integrating the school system
°Joined the California Task Force for Integrated Education and attended their meeting in Sacramento
°Researched and developed maps showing segregation patterns from 1966 to 1972 in the San Diego school district
°Joined efforts with =CAUSE to oppose Proposition 21.

°Made presentations explaining the 1966-72 segregation pattern maps to the following groups:

Southeast YWCA mothers club
Methodist ministers' Thursday morning meeting

Dear Friends,

A question often brought to us requires your help in answering. People want to know what effect CURE has on the community. Has the existence of this organization, its newsletter, or other activities, caused people to do somethings to confront racism?

What is happening on the everyday level?

What are the members and readers doing?

Would you share with us any of the things (large and small) that you have done to confront racism that have been inspired as a result of the existence of CURE? You may either leave it on the table tonight or drop it in the mail to 3386 30th St., SD 92104. We appreciate your help. Thank you!
