While I live in Marin County, I have been spending more and more time in San Diego and even anticipate a permanent move to that area. Therefore I am introducing myself with the thought that I might help you manning referral phones, once I boned up on local resources. A good radio voice, considerable empathy, active experience in human rights, and a degree of resourcefulness might blend well in your service.

Are your needs met for this summer, for example? Enough volunteers? What about next fall?

Presently I expect to be in Julian around the 4th of June; so if you are having another orientation meeting in June, won't you kindly let me know?

Cordially - with best wishes for your success,

Lucile Dandelet
