Gentlemen:

Your telegram of January 5, 1970, advocating no "immediate decision" concerning school sites in the South Bay Terraces housing development, but rather, "broad community involvement in the consideration of all alternatives including an educational park," was considered by your Board of Education at our regular public meeting of January 13, 1970.

Please know that we are still carefully considering all of the ramifications of school racial imbalance involved in our participation of the South Bay Terraces project.

We thank you for your interest in this vital matter.

Sincerely,

George W. Smith

George W. Smith, President
Board of Education
