[MS-0087.005.002.008]

10/2/68

To the Editorial Board:

If it could be possible to include the following suggestions in the next issue of the newsletter, I feel it would be helpful to me and others involved and interested in CURE. Some you may have already planned to do, but I am stating them so they may not be overlooked. These requests reflect needs that have come ot me as a result of the calls that have been coming to CURE.

Thank you,
Dot Lloyd

1. Workshop article telling

   1. specific suggestions for action that were made at the 21st meeting

   2. programs, groups or projects that were initiated at that time and what areas they will be dealing with

2. A request form everyone to send us the name or location of groups (either action or dialogue) that are working on the problem of racism. Tell us briefly about the group, when & where it meets and the key person for contact. Could this be placed in a boxed off area and direct them to Dot Lloyd at 520 "E" St.? We are trying to work up a list of these groups because requests for such information have been made and we're trying to match individuals to groups in their area. Below is a sample idea of what I mean. Phrase it anyway you wish.

   Do you know of or are you associated with a dialogue or action group? Please share with us the name, location, contact person, their phone number & the projects. There may be someone in your area that would like to work with you. Send to Dorothy Lloyd c/o CURE, above address.

3. Please add Room 502 to our address at 520 "E" on the logo. This is at the request of Mr. Waymon because a large amount of our mail has been misdirected to CIC.

4. At the 9/3 Board meeting a motion was carried to include in each edition of the newsletter an announcement that the CURE Board of Directors meets the first Wednesday of each month at 7:30 p.m. - Unitarian Church - 4190 Front St. All CURE members are invited to attend and all others are welcome.

5. An article urging people to join or subscribe to CURE because we financially may not be able to continue to mail to our entire list of 3500 and be able to guarantee delivery only to the subscribers and members and those who have indicated a desire to receive the newsletter. The remainder may or may not be able to expect delivery depending upon our ability to meet our financial needs. As I write this suggestion I'm wondering if this one might be controversial and need discussion with the Board of Directors 10/9. What is your opinion?

Citizens Committee for Emergency
