Dear Mr. Taylor:

Are copies available of your recently released survey of HEW's enforcement of school anti-discrimination laws ? If so, would you please send a copy to our organization. If there is a charge, please bill us.

CURE is a civil rights organization of about 400 members in San Diego, with most of our members from the city itself. We are an integrated group, though most of our membership is white. We have been in existence since 1968. We have been active in most areas of civil rights, housing, employment, law enforcement, but our greatest activity has been in the area of school integration.

I anticipate that your survey will be very helpful to us.

Thank you,

Clifford Swift
