San Diego City Councilman - Administrator

BA Degree, San Diego State College, Psychology and graduate work in public administration.

An auto junkyard next to your home?

In sections of our Fourth District it is not too uncommon. We are the victims of zoning that mixes gas stations and houses and bars together. We must make changes soon if our community is to remain a good place to live.

Other things, too, need changing.

We must speed up construction of housing for low-income families;

We need imaginative youth activities that appeal to our young people; and

We must take a careful look at the critical social problems that cause many of our citizens to get impatient at times.

For years I have watched as I have worked...as an administrative assistant to the sheriff, as a welfare supervisor, and as director of the Neighborhood Youth Corps.

I have seen much and now am ready to face these challenges by continuing as your councilman. We have much we can accomplish together.

Statement by Leon Williams

An auto junkyard next to your home?

In (Sections of) our ~~South~~ (Fourth) District it is not too uncommon. We are the un~~fortun~~ate victims of zoning that mixes gas stations and houses and bars ~~all~~ together. We must make changes soon if our community is to remain a good place to live.

~~We have~~ other things, too, ~~that~~ need changing.

We must speed up construction of housing for low-income families;

We need imaginative youth activities that appeal to our young people; and

We must take a careful look at the critical social problems that cause many of our citizens to get impatient at times.

For ~~many~~ years I have watched as I have worked...as an administrative assistant to the sheriff, as a welfare supervisor, and as director of the Neighborhood Youth Corps.

I have seen much and now am ready to face these challenges by (continuing) ~~continiung~~ as your councilman. We have much we can accomplish together.
