Dear Sirs:

This letter is an introductory letter from my sorority, Delta Omicron Epsilon Service Sorority, San Diego State College. I am the first vice-president, and service chairman for this semester.

We are interested in service projects with your organization or agency. We would like to have any information available.

Please excuse this form letter, but it is the first step in contacting you. I may be contacted at the address or phone below. I may be having a member of my service comittee contact you further if I cannot do so myself.

Our organization is made up of about forty college girls, ranging in age from approximately 18 through 22. We are interested in any type of projects you may have for us. We are interested in group and individual projects. The projects may be scheduled on weekends or weekday evenings.

Any information you may be able to give me, especially dates available for projects will be appreciated.

Thank you very much for your time and consideration.

Sincerely yours,
Debbie Collis
