September 4, 1966

Dear Hal:

Just a quick note to let you know we have returned from Mexico and have not really become finks. Ann has been ill with the possibility of a ruptured diaphram and the prospect of an operation rough to take & rough on the pocketbook. I'm committed to finish a small book by October 1st which the Amer. Assn. of Junior Colleges needs by then for publication & which I need to finish by then to collect the commission which circumstances makes most important to me at the moment.

I hope the project is off to a good start & that you were able to get the lieutenants you wanted. I also hope that the CORE Chapter has kept

its head above water. It needs to limp along in order to give some support to the project — and in my opinion to muster forces again for the hellish row which I still see ahead for our society.

If you see Senord McBride please tell him I'll be back in the ranks as soon as family health & family finances will allow

I'll look foward to talking to you

(Mr) Charlie

PS I've enclosed some stuff you may want to look over & keep some of it for the files.
