The County Information and Referral Service has finally been established. We will be a central resource file of information concerning health, welfare, recreation, and related services for the entire population of San Diego County.

Upon request, the professional staff will provide information about these services to individuals and agencies and may refer an individual to the appropriate source of help - at no cost or obligation to the individual nor the agency.

In order to accomplish our job successfully, we are in the process of setting up our resource files on agency programs and services which will be constantly expanded and updated. You can assist us in the task of matching need with service by filling out the enclosed card and dropping it in the mail. We will then contact you at your convenience.

If, in addition, you would care to send us any booklets, directories, or brochures which you think would help us to understand your service, they would be greatly appreciated.

We will be very grateful for your cooperation and hope to be of service to you, your staff and your community.

Thank you.

Sincerely yours,

David M. Cueny
