October 20, 1975

Ms Martha W. Vickers
CURE
3944½ Third Ave.
San Diego, Ca., 92103

Dear Ms Vickers:

For some time, University Hospital has been fulfilling its community responsibility as a teaching hospital and as a major force in health care development in San Diego. As such, we are making an effort to improve both public understanding of what is an appropriate role for the Hospital within the community, and in what ways the Hospital might be more responsive to the community's health needs. To this end, we have appointed Mr. Cleo Malone as our Community Agency Liaison.

Mr. Malone will work toward personal interaction with community medical clinics as well as appropriate non-medical groups, and when indicated will assist community groups in developing health education programs which stress prevention and maintenance.

He will be contacting your organization in the near future. However, if you wish to call him he can be reached at University Hospital, 294-6472.

Sincerely,

Connee Pence
