Dear Mr. Williams:

I understand the Supervisors have a budget problem.

I would like to see you privatize the jail (so the prisoners work and pay their own way.) San Diego already has a start on this.

The money saved by privatizing the jails, should be put into mental health and the mentally ill programs. If you cut out money to the psychiatric hospital and service to the mentally ill, you will have a bigger and more expensive problem with street people and the mentally ill in crisis.

Cutting the mental health program will not save money. More money will be spent in the long run.

Very truly yours,

Mrs. Elizabeth Mallory
