RE: APPLICATION NO. 6-93-133, NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD

Dear Commissioners:

I would like to express my opposition to the Encinitas Transit Center as proposed by the North County Transit Development Board. The City of Encinitas has repeatedly opposed the bus transfer facility portion of this transit center, and I support that position.

Section 30212.5 of the Coastal Act requires that public facilities shall be distributed throughout an area to mitigate against impacts, overcrowding or overuse by the public. The transit center is proposed for a very small site, approximately three blocks from Moonlight Beach and within a block of the town center. The site has traditionally been used for parking to support the nearby coastal uses. Vulcan Avenue is one of two north-south arterials west of Interstate 5. Adding the bus trips to this particular intersection will not only significantly impact parking in the area, it will also significantly disrupt the flow of traffic on Vulcan Avenue. This will in turn, impact the public's ability to reach the coast via Vulcan Avenue at D and E Streets.

The City of Encinitas has repeatedly worked with the North County Transit Development Board to resolve the issues of additional traffic and parking demands on this key area of town. NCTD has not modified the design or intensity of the Transit Center to meet these concerns. I am very supportive of transit service and reducing the reliance upon single occupancy vehicles, but this is not an appropriate design or location for a major bus transfer station.

Please do not approve the Encinitas Transit Center as proposed: I respectfully request that you direct NCTD to develop a project design that will reduce conflicts with existing traffic and parking needs. Thank you for your time and consideration.

Sincerely,

Pam Slater

Dear Commissioners:

RE: Continuance Request for File No: 6-93-133, NCTD Transit Facility in Encinitas.

The City Council directed staff to request a continuance of the agenda item (File NO: 6-93-133) regarding the transit facility located in Encinitas.

It has come to our attention that the staff report presented to the Coastal Commission doesn't reflect the action taken by the Council regarding this project. The City's action approved the train station and denied the bus facility.

The City Council recommends that this issue be continued to your next available meeting so that the City's action can be presented to you in full.

Sincerely,

Patrick S. Murphy
Community Development Director
