**SAN DIEGO CITY SCHOOLS**

EDUCATION CENTER
4100 Normal Street

DATE: August 7, 1980

MEMO TO: Goodman via Patrick

FROM: Regan

SUBJECT: INTEGRATION ENROLLMENT
STATISTICS (REVISED AUGUST 7, 1980)

The following statistical information should be used to counter the myth that the burden of the district's integration program falls on minority youngsters.

The information listed below on magnet non-resident enrollment came from the Community Relations Division Office in a report titled "Students Participating in Magnet Programs (April 1980)"; Career Center numbers came from the Secondary Schools Division Career Center enrollment record book; VEEP, Instructional Exchange, Learning Center, and Balboa Park numbers were taken from the "Evaluation of the San Diego Plan for Racial Integration, 1979-80"; and the Outdoor Education Program statistic was derived by taking the total number of participating City Schools students (7,392) listed in the above evaluation report and multiplying it by 56.1 percent, the majority percentage for the elementary schools of the district.

NUMBER OF STUDENTS VOLUNTARILY LEAVING
THEIR SCHOOL OF RESIDENCE TO
PARTICIPATE IN AN INTEGRATION PROGRAM

1979-80

| Program | White | | Minority |
|---|---|---|---|
| Magnets | 2,357 | | 1,561 |
| Career Centers | 306 | | 313 |
| VEEP | 32 | | 3,707 |
| Instructional Exchange | 523 | | 597 |
| Learning Centers | 3,879 | | 3,469 |
| Balboa Park | 1,931 | | 1,868 |
| Outdoor Education | 4,146 | | 3,246 |
| TOTAL | 13,174 | (1,587 diff.) | 14,761 |

Another interesting fact: 623 non-resident white students attend 9 minority-isolated elementary schools; 276 attend the 5 minority-isolated secondary schools. In summary, a total of 899 non-resident white students attend magnet and career center programs in 14 minority-isolated schools.
