Dear Councilman Williams:-

Enclosed is my small contribution to your campaign.
While I intended to send it anyway, I want you to know that I especially delighted in your statements , that you felt growth of San Diego should not be at the expense of its present residents and that you thought one of the significant changes in our City Government you have witnessed, is that people are given more consideration.

I too strongly feel that the present residents of this City and their present and future needs should have priority in the thinking of our government over growth or the creation of jobs which induce it and bring in more people whose needs cannot be solved.

with my very best wishes

Aty Hughes
