Dear Earl,

Doctor's orders will keep me away from your induction ceremony and reception Friday, but please add my congratulations and best wishes to the hundreds of others you'll get there.

While I've only watched you from a distance during my short time here in San Diego, my impression of your personal and professional strengths is obviously shared by those who know you well. Your appointment is an important personal achievement of course, but it is even more important for the San Diego community.

Congratulations again and best of luck in your new assignment.

Sincerely,

CLIFFORD W. GRAVES
