| Management Planning Program, Human Resources Agency, San Diego County | 11,961 | programmer/ analyst | 9 | 1-74/9-74 |

NEW INFORMATION
not in data print out.

****OPTIONAL
The space on this page is to give you an opportunity to make any statement you like about the organization being described. This section will be called "Agency Statement" and will be recorded verbatim. Space is limited, so please try to restrict yourself to ± 100 words.

Community resources are people, time, energy, skills, ideas, services, things, money, space and information. In every community, these resources are available, but often there is little or no connection between the source and the need. In San Diego County this is particularly apparent as many persons do not receive even those services which are available to them, generally because of a lack of knowledge of those services.

In addition, planners, service providers, the makers of public policy and others are actively seeking information to aid them in their work. At the present time, the means for obtaining active, sustained consumer input for planning and other purposes are inadequate.

Community Contact Services consists of four interrelated components:

1. GuideLine
2. ReSource
3. Contact Communications
4. Community Development Consultation Service

All of these are involved in activities centered around data-gathering, information dissemination and communications. The clients of CCS may be individuals, groups or organizations concerned with human care services - both those seeking services and the planners and providers of services.

ON THIS PAGE, PLEASE DESCRIBE IN DETAIL THE SERVICES YOU OFFER TO INDIVIDUALS, TO GROUPS OR TO OTHER ORGANIZATIONS. PLEASE NUMBER EACH ONE FOR LATER REFERENCE. (We ask you to describe in detail so that we can be sure of identifying exactly what you do.) ATTACH OTHER SHEETS IF YOU NEED THEM.

This information, adapted to our Service Identification System, is found after the title: TYPES OF SERVICE AVAILABLE? and after the title SERVICES: or ADDITIONAL SERVICES: (in the ADDITIONAL INFORMATION section) of the data printout.

PLEASE double-check your data printout to be sure that the information is correct.

| Your Service Numbers | The Name You Use For This Service | Detailed Description of Service | Average number of persons served per month |
|---|---|---|---|
| 1 | GuideLine | Provides basic counseling services related to crisis intervention, problem-identification, problem-solving and referrals. Provides community resource information and referrals to individuals, groups and agencies. Operates a telephone "hot-line". Operates a walk-in service. Operates a Travelers' Switchboard. Keeps records on each contact made, the type of request, the type of service provided by GuideLine, the course of action (including referral, if any), and the results, if available. Informs individuals, groups and agencies of courses of action to assist them in achieving their objectives. Provides training in information and referral to community groups. Interprets the GuideLine services to the community. | 650 |
| 2 | ReSource | Collects and prepares data for data-processing. Implements the data-processing system design in conjunction with electronic data-processing personnel. Provides data and information to those requesting it, including, but not limited to, the other components of Community Contact Services. Provides training in information-gathering and compiling, development of resource files and other related training. | 25* |

| | | | |
|---|---|---|---|
| 3 | Contact Communications | Prepares and distributes resource directories of various types to individuals, groups and agencies requesting them. Prepares and distributes information to the public about Community Contact Services. | N/A** see below |
| 4 | Community Development Consultation Service | Assists with people-mobilization and coalition-building. Provides assistance with proposal-writing. Provides consultation assistance upon requests from individuals, groups and agencies with regard to the following: funding; resource procurement and development; information-gathering, use and dissemination; social change and community organization; various community processes; public education; organizational development and style; voluntary action; and other areas according to requests and available expertise. | 30*** |

* The ReSource client count represents organizations, not individuals.

** At the present time, Contact Communications produces printed materials only. No client count per se is kept.

*** The average given here is somewhat misleading. During certain times of the year, such as prior to United Way funding processes, many more individuals and groups are assisted. At other times, few requests for this service are received.

SPECIFIC SERVICE INFORMATION — Page 5-1

These packets are used to provide more information on each of the services you have identified on Page 8.

- If information in this packet refers to more than one service, list your service numbers for those to which it applies.
- If the same information applies to all of your services, just say so and complete only one packet.

ON THE NEXT PAGE we will be trying to identify the problems or conditions affecting people in our community. By relating this information directly to the services which are designed to impact the problems or conditions, we hope to identify our community's problem-solving system.

Please check the statement which best describes this service. (OR, if none of them seem to apply, write your own.)

____(A) provision of minimum essentials for living

____(B) guidance and/or promotion of normal personal and social development

____(C) restoration of physical and/or social functioning - rehabilitation

____(D) prevention of damage - social protection - prevention of physical dysfunction

____(E) enrichment or enhancement of quality of life and living - development to fullest potential

X (F) social and/or health planning - community development

____(G) (Write your own.)

All
NEW INFORMATION
not found in printout.

PROBLEM IDENTIFICATION

1. Considering the response you made to the last question on the preceding page, what is condition affecting individuals, groups or the community which you are trying to impact through this service? (e.g., jail recidivism, substance abuse, sickle-cell anemia, marital discord, etc.)

   1. (Organizations only) lack of information about resources.
   2. Inadequate knowledge about how to deal with information and informational problems.

2. What is the extent or severity of this condition? (If you have available figures to substantiate this, they would be most helpful. If not, don't worry. If we can't find this our from you, we will try to find out for you.)

   Varies with organization requesting service.

3. As far as this service is concerned, where (geographically) does this condition exist? (Describe the geographical area in your own words.)

   San Diego County

4. Aside from the problem you have described above, what are some of the typical problems of clients who are receiving this service? Include those which you do not deal with.

   N/A

PROBLEM IDENTIFICATION

1. Considering the response you made to the last question on the preceding page, what is condition affecting individuals, groups or the community which you are trying to impact through this service? (e.g., jail recidivism, substance abuse, sickle-cell anemia, marital discord, etc.)

   1. Inadequate planning skills and resources.
   2. Minimal access to communications and information.

2. What is the extent or severity of this condition? (If you have available figures to substantiate this, they would be most helpful. If not, don't worry. If we can't find this our from you, we will try to find out for you.)

   Varies greatly according to the group requesting the service.

3. As far as this service is concerned, where (geographically) does this condition exist? (Describe the geographical area in your own words.)

   San Diego County

4. Aside from the problem you have described above, what are some of the typical problems of clients who are receiving this service? Include those which you do not deal with.

   Lack of, or inadequate, financial support. Lack of staff.
