Dear Mr. Dennis:

Thank you for your letter regarding the proposed Sycamore Ridge mining facility and the North County Landfill Siting Study. I appreciate the fact that as a home owner, you have concerns about land use decisions that affect your property.

With regard to the H.G. Fenton Company's proposal for a rock mining operation at Sycamore Ridge, be assured that I will weigh all points of view when this issue comes before the Board of Supervisors later this month.

Siting a County landfill is certainly an issue about which many people have very strong opinions. In response to your inquiries about the Campo Indian Band reservation, please understand that their facility is still in the planning stages. It does not now, nor may it ever, exist. The environmental soundness of the site has come under heavy attack from many sectors. In addition, the Board of Supervisors has taken a position against shipping waste away from its area of origin and against privatization in matters pertaining to landfills.

Again, thank you for bringing your concerns to my attention. If I may be of future assistance to you, please feel free to contact me.

Sincerely,

Leon L. Williams
