Dear Mr. Lelak:

Thank you for your recent letter regarding the proposal for a rock quarry at Sycamore Ridge and the North County landfill siting process. I appreciate you taking the time to express your concerns on these two issues.

Be assured that I will take all points of view into consideration when the Fenton proposal comes before me later this month. In the case of siting the landfill, the Board will carefully consider all of its options before selecting the locations for future landfills to meet North County's needs for the next several decades.

I do want to respond to your comment that "trash should be burned or hauled out of the area." I am in favor of incineration and have repeatedly supported waste-to-energy technology for this area. We have not yet been successful in bringing this technology to our County, but the means for that, and other disposal technologies, are being explored. The Board has taken a position against shipping waste away from its area of origin.

Once again, thank you for your letter. If my staff or I may be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Leon L. Williams
