I We do not come necessarily to tell you what you want to hear. We came here to share with you what we feel in our hearts. And equally as important is that we came to hear your thoughts on this Topic. So let us make this an evening of Sharing in Frankness

and in truth.

II You are a Concerned group! We are here to ask you to help in this area of Racial + Religious Discrimination.

Let us be reminded that no matter how we feel on this issue, we can only be divided

into Two Catogories:

1. Those who want to do Something to end Racial discrimination in this country.
2. Those who don't want to do anything to end Racial discrimination in this Country.

I Think you are in the first

Category. It is up to you to find the way which you can work best to achieve this end.

III

Now let me introduce to you Four wonderful People who I am very happy to know and consider my friends. These four People are dedicated to fighting Bigotry and

(5) + Discrimination

Racial Predjudice. But I feel the important thing is not who these people are but who they represent. They represent hundreds of people from the El Cajon Valley Open Housing Comm. & C.O.R.E. who feell just as strongly about this issue as we do.
