Dear Mr. and Ms. Kerr:

Thank you for your letter regarding the request by Grosvenor Industries for a waiver of Board Policy I-59. I appreciate your taking the time to express your point of view. This waiver request came before the Board of Supervisors while I was on County business in Washington, D.C., and I was, therefore, unable to vote on this item. As you know, the request was denied by a unanimous vote of the supervisors present.

Additionally, there are several comments in your letter to which I would like to respond. The first is your statement that the Board of Supervisors seems to think of its constituents as "ignorant sheep." To characterize the citizens of this County in such a manner would be a gross misrepresentation of the interest and intelligence of our population, and at no time have I ever made such an assumption or statement.

I must also take issue with your accusation that the Board treated the privately owned property within the Cleveland National Forest in an "underhanded" manner. I refer you to my January Letter to the Editor, a copy of which is enclosed. I feel strongly that the Board acted responsibly and with sensitivity to the needs of the many parties who came before us during the nearly six months of testimony on the Central Mountain Subregion Update.

Once again, thank you for writing to me. If I may be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Leon L. Williams
Supervisor, Fourth District
