Dear Mr Kolender,

I have no children or grandchildren in the schools of San Diego. I had never heard of Mr Holmes until Tuesday and I have no personal interest in politics. I have been a resident of San Diego for sixteen years.

I am interested in children and I have had many conversations with a very literate eleven year old who is bussed to Challas school. As a result of these conversations I have been quite concerned for some time. Mr Holmes comments were very much the same as the childs.

There appears to be truth in the fact that there is very little interplay and that the children who are bussed are told a great deal about how they are especially blessed with expensive equipment. I am afraid that even more bigotry may be the result from the way the magnet school is conducted.

Whatever Mr Holmes's reasons for going directly to Judge Welsh, I hope it will have no influence on your investigation and your judgment of the opinions he expressed.

Very truly yours,
Eileen (Mrs Ralph) Yates
