Meola C. Stoney
888 Franklin Circle
Palm Harbor, Fla. 34683

Dear Ms. Stoney:

Thank you for your letter regarding the Fenton quarry proposal and the North County landfill study. I certainly understand your interest in land use decisions that may affect your community.

Be assured that I will take all points of view into consideration when these issues are before the Board of Supervisors, and that each of the options available to the Board will be carefully considered before a decision is made.

In addressing the landfill search, please remember that the Board has established two policies which have a direct impact on our landfill siting decisions. Those positions are against shipping waste away from its area of origin and against privatization in matters pertaining to the ownership and operation of landfills. "Out of sight, out of mind" is no longer an acceptabe policy or an option for this county in deciding solid waste disposal strategies. Communities must begin to work together and share responsibility for solving the immediate and long range solutions to solid waste disposal.

Again, thank you for taking the time to express your concerns to me. If my staff or I may be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Leon L. Williams
Supervisor, Fourth District
