Dear Ms. Carpenter:

Thank you for your recent letter. I, too, remember the dedication ceremony for Balboa Park's Organ Pavilion, as well as, our protective aprons.

In response to your comments on the Fenton proposal for Sycamore Ridge, I would like to note that the costs for the interchange at I-15 and Welk Boulevard would be born entirely by the applicant, H.G. Fenton Material Company. Water contamination is not likely to be an issue with a facility of this nature. Rock quarry activities are generally not associated with ground water concerns and the environmental studies which have been done in conjunction with this proposal do not point to any water-related issues.

I do appreciate your concerns and I thank you for taking the time to express your point of view to me. I will listen to all points of view when this issue comes before me, and weigh the testimony carefully before making my decision.

Sincerely,

Leon L. Williams
