January 24, 1992

Mr. Raymond W. Burk
Commissioner, Board of Port Commissioners
San Diego Unified Port District
P.O. Box 488
San Diego, CA 92112

Dear Mr. Burk:

In these times of severe economic hardship, it becomes increasingly important to have close, cooperative relationships between public agencies and private industry. We must endeavor to stabilize local economies, and reduce the impact of the recessionary period in which we find ourselves.

Now, more than ever, we all must strive to meet the needs of the community at large. With this in mind, I urge the Port Commission to make every effort to reach a successful agreement in its lease negotiations with Solar Turbines Incorporated. Solar represents a valuable asset to greater San Diego--an asset we can ill afford to lose.

I know you will, as always, act in the best interest of our community.

Sincerely,

Leon L. Williams
Supervisor, Fourth District
