LEON L. WILLIAMS
SUPERVISOR
FOURTH DISTRICT

April 28, 1992

Mr. Paul and Mrs. Helen Wicorek
4702 Adenmoore Avenue
Lakewood, CA 90713

Dear Mr. and Mrs. Wicorek:

Thank you for sending me a copy of your letter to Supervisor Golding expressing your concerns over the H.G. Fenton Material Company proposal. I wanted to respond to some of your statements because I believe that there is some confusion over two distinct issues being considered by our Board of Supervisors.

The Fenton Company has submitted a proposal for a Major Use Permit which would allow them to operate a rock quarry, asphalt batching plant and concrete batching plant on a site commonly called Sycamore Ridge. The Board will be considering that request during its hearing of the April 29th Land Use Agenda.

In addition, the Board is currently conducting a search for landfill locations in North County. One of the locations under consideration is very near Sycamore Ridge and is called Merriam Mountain. It is one of four sites on which environmental studies are being done. The Board will consider all of its options very carefully before making a decision on locations for landfills to serve the future needs of this County.

The landfill issue has some relationship to the Campo Indian Band. The Campo Indians are also attempting to site a landfill; one which would be located on their reservation. There is no relationship between the Fenton rock quarry project and the Campo Indian Band.

1600 PACIFIC HIGHWAY • SAN DIEGO, CALIFORNIA 92101 • (619) 531-5544

Please understand the Campo proposal is still in the planning stages. It does not now, and may never, exist. The environmental impact report for their proposal has received severe criticism from many sectors. Further, the Board of Supervisors has established policy that prohibits the shipping of solid waste away from its area of origin and against privatization.

Once again, I appreciate your taking the time to write and express your concerns to me. If my staff or I may be of assistance to you in the future, please don't hesitate to contact me.

Sincerely,

Leon L. Williams
