Dear Mr. and Mrs. McGuire:

Thank you for your letter regarding the Sycamore Ridge quarry proposal and the Campo Indian Tribe proposal.

With regard to the rock quarry application, this Board is aware of a tremendous shortage of aggregate in this County. To date, only two locations in the County have been identified as having the quality of aggregate needed by the home building industry. There are many facets to this issue and you may be assured that I will take all points of view into consideration when this matter comes before the Board of Supervisors.

The proposal for a North County landfill is not a project proposed by the H.G. Fenton organization. It is a County proposal. The siting and operation of landfills for the unincorporated areas of the County is a responsibility of the County Board of Supervisors. The Board has taken a position against shipping waste away from its area of origin and against privatization in matters pertaining to landfills.

Again, thank you for expressing your views. If I can be of service to you in the future, please do not hesitate to contact my office.

Sincerely,

Leon L. Williams
