Community Meetings
Members were reminded of the community meetings that are being held in May. It is hoped that all Task Force members will attend all of these meetings. The purpose of these meetings is to obtain input from the community. Any questions as to how good or bad the program is doing should be referred to the Report.

School District's Rescinding of Instructions
There was some question as to whether school board members and staff were aware that the Judge had rescinded the communication blockage between them and the Task Force members. Mr. Fletcher was asked if he could recommend to Dr. Goodman that the school district issue a statement to its staff that would encourage them to bring to the monitors and TF members ~~problems they are encountering~~ input regarding the integration plan. He said he could only indicate the concerns expressed by the Task Force at this meeting.

Committee Reports
Mr. Jim Anderson gave the report for the Quality Education Committee:

1) He met with the San Diego State Department of Education. At this point they are endeavoring to arrive at a criteria with which to judge quality education. Judge Welsh wants for them to look at the white isolated schools and the black isolated schools to compare the quality of education between these two distinct types of schools to determine if the quality of education is the same. If not, then why not?

2) He also had lunch with the Superintendent of Schools at the Superintendent's request. He will try to get input to the criteria from the Superintendent and from the plaintiffs.

Formation of Executive Committee

The Chairman asked for volunteers to form an Executive Committee. The Executive Committee will meet once a week. He said that if Task Force members do not have the time, please do not volunteer. The function of the Executive Committee would be to represent the Task Force and conduct business between meetings, as well as plan the agenda.
