Council man Williams,—

Congratulations and good luck.
I believe Geo. McKinney introduced
me to you several years ago. (I'm his
church architect). I hope I never live to see
the Day when such a proportion of each
color is represented in Gov. or civil
life and ~~that~~ America will continue
to be for all colors & all faith or belief.
But I am extremely proud of my
City in recognizing the worth of a
Black citizen & its confidence over

in voting as I did to seat you on the Council. My heartfelt wish for a long and successful political life with impunitedly to all.

Don Campbell.
