Re: REGIONAL CONFERENCE ON RACE AND HUMAN RELATIONS

Dear Supv. Williams:

The County of San Diego Human Relations Commission is planning a "Regional Conference on Race and Human Relations" to be held in September of 1990. The conference will focus on critical human relations areas such as discrimination, hate crimes, and migrant workers--and will offer specific programs for professionals in the fields of business, education, government, health, the media, law enforcement/criminal justice, and community planning groups.

The Commission asks your support of this important public service by designating an appropriate member of your organization to serve as a representative of your profession on the conference Planning Committee. The Committee will meet for approximately two hours, twice a month, at a convenient downtown San Diego location such as the County Administration Center. Human Relations Commission staff will be available to support the work of the Committee.

A representative of the Commission, Rev. Robert Ard, will be contacting you shortly to obtain the name of the person you have selected to serve on the Committee, and to answer any questions you may have.

Thank you for supporting the work of the Human Relations Commission in promoting positive human relations in San Diego County.

Very truly yours,

Rev. Robert Ard

Rev. Robert Ard, Chair
Human Relations Commission
County of San Diego
