EMPLOYMENT--CETA--PUBLIC SERVICE EMPLOYMENT

Presented by Mayor Tom Bradley

March 15, 1976

As elected officials responsible for delivering vital community services, we all realize the impact that double-digit inflation and unemployment have had on our cities. One of our key anti-recession tools at the local level has been public service employment funded through Titles II and VI of CETA. But, in California alone, 62% of Title II programs and 34% of Title VI programs are projected to run out of funds prior to the end of this fiscal year (June 30, 1976). If we are to avoid the delivery of these PSE workers to the ranks of the unemployed, Congress must act IMMEDIATELY to:

1. Pass An Emergency Supplemental Appropriation of $300,000,000.

This appropriation would help the cities with their shortfalls in May and June. The Department of Labor estimates that approximately 150,000,000 would suffice, however, NLC/USCM questions that estimation and feels that the $300,000,000 level is a more accurate reflection of real need. This action must be initiated by the House Appropriations Committee (see attached list) and its Subcommittee on Labor, Health, Education, and Welfare (see attached list).

2. Encourage the extension and continuation of CETA Title VI public service jobs program.

The House has acted by passing the Daniels bill (H.R. 11453). We are currently awaiting action by the Senate. This activity must commence in the Senate Labor and Public Welfare Committee (see attached list), and its Subcommittee on Employment, Poverty and

Migratory Labor. We must urge the Senate to act quickly and report out its bill so that it may enter a stage of negotiations with the Daniels bill.

3. Pass an additional Supplemental appropriation of $525,000,000 for the summer youth employment, recreation and transportation program.

The President has requested $440 million for jobs only. The $525 million figure represents the same job slot level as last summer, (at the new minimum wage level which has increased 10¢ per hour over last summer), and a slight increase (10%) for the recreation and transportation program to account for inflation. ($504 million for jobs, 21 million for recreation and transportation = 525 million total.)

The crisis is now! We must obtain immediate support for these strategies if we are to avoid current and projected massive layoffs of public service employees and provide for a balanced summer program for our youth.
