Elliott Lee Perry

I Elliott Perry was in the process of taking a bath when my brother Robert Grimes and Katehy Grimes informed me that the dog pound man was parked on corner in front of my house. Then I went and put on some slacks, went into my living room and saw (one) police man and dog pound man, the one more policeman was called by the first policeman then another policman was called then the three walked up on my property started ~~conversing~~ talking while another policeman drove up in front of my house then the four men & dogman ~~came~~ up to my front door then started insisting that I bring my dog up to them so that they may see him. Then I told my brother Robert G. & Kathy G and Linda Grimes to go into the house, while they were going into the house Linda was the last one in and while she was closing the screen door one of the policmen pulled the screen door open, then Linda pulled the screen closed. While I was still outside the house, one policeman pulled me to the side and told me to just stay there, by then another police tried to pull Linda G out of house, then another came in and got her and grabbed her by ~~the~~ her neck while one other one was pulling her arm at the same time, by this time I was ~~was~~ starting to walk by the officer when he grabbed me by my neck and I ducked and slipped out of his armhole I ~~got~~ walked past the the officers and went into the house, after I got into the house, pulled my sister Linda G. from the policemen, I got the dog from the hallway out of my brother ROBERT Grimes and kept hold of him and ~~a~~ watched

my sister Linda L. got dragged over the house getting mace sprayed into her eyes then the policemen got hold of her and handcuffed her and dragged her to the police car. Then two more policemen were in the house telling me that I was under arrest. Then I started asking them what were they ~~un~~ arresting me for while I had the dog in my hands, the police told me to come on "OK, I'm going to come when you leave the house man" then "he got his billyclub out and I asked him what he was going to do with that club and he said I'm going to beat the dog brains out and then take me to jail too, while ~~to~~ he was raising it at us. I said alright man I'm gonna go, then they started knocking out all the house while I was walking towards the door with the dog I went outside with the ~~dg~~ dog while he's still barking.

Then I put the dog in catchers truck and went and got into the policemans car then we drove off and drove down down Amesbury St. turned the corner then the men stopped and talked to ~~the~~ each other in the other car that they put my sister in. He came back and asked me "What you gonna do man", I then asked him what did ~~he~~ mean, then I asked him where was ~~he~~ taking, he said "to jail", then I said "I don't know what I'm gonna do man" He then told his partner "I'm gonna handcuff him man cause I don't know what he's gona do. Then he told me to get out the car, when I did they handcuffed me, then put me back in the car. Then we drove

down to the police station, the other police took my sister Linda downtown. She started choking and gagging and gasping for air and vomiting, then the supervisor came and asked "what was wrong with her and the other officer said "o man she's just faking, then the officer that arrested me came over and asked "What wrong wrong with her, I then told him "I don't know man, then he said "What has she been doing, has she been dropping reds, I said "man I dont know, "I dont think so, then he said "if she's been dropping reds she might be having a withdrawal and it might be killing her". Then the other officer started pulling Linda out of the car, he then shoved her back in the door and closed the door. He started to get in his car the one that arrested me and the officer "what you gonna do with her, are you gonna take her to the hospital" the one that had her said "Hell no I'm gonna take her over here to the rest room to wash her mouth out then he drove over to the bathroom and then the sargeant called one of their policewomen and told her to "go over there and help that gal and wash her mouth", then they took and took his to jail then after they took me to jail they then took her Linda to the hospital
