Visalia, CA 93291

Dear Mr. Grimmius:

Thank you for your recent letter regarding the Fenton Company's proposal for Sycamore Ridge and the County's landfill siting study. As a home owner, I can understand your concerns about land use decisions which may affect your property.

In response to your question about an alternative location for the rock quarry, I am told that, at this time, only two sites have been found in the County which would supply the quality of aggregate required by the home building industry. Both sites will be coming before the Board for Major Use Permits, and both will receive my full attention. Please be assured that I will take all points of view into consideration when making my decision.

You asked about the proposed landfill site on the Campo Indian Band reservation. This project is in the planning stages and does not now exist. The environmental soundness of the site has come under heavy attack from many sectors. In addition, the Board has taken a position against shipping waste away from its area of origin.

Again, thank you for taking the time to write to me. If my staff or I may be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Leon L. Williams
