Dear Mr. and Mrs. Abell:

Thank you for your letter regarding the H.G. Fenton Material Company's proposal for Sycamore Ridge. As a home owner, I appreciate your concern over land use decisions which may affect your property.

In response to your statement that the permitting of this project would introduce a negative impact to the area, I must remind you that there is already a rock quarry adjacent to the Fenton property which has been in operation for many years.

Please be assured that in reviewing the testimony given on this issue, I will listen to all points of view, and will give careful consideration to all the pertinent facts relating to this case.

Thank you, again, for taking the time to write. If my staff or I may be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Leon L. Williams
