University Regulations require reimbursement for the use of campus computing resources to support funded contracts, grants and other externally funded projects. Such use may NOT be under a NON-FUNDED Account.

I certify that the requested account(s) will be used exclusively for the work specified by the information provided on this form, that the proposed use of the computing services is justified by the programs of the California State University system, and that the work processed by this account is not funded by any contract, grant or other external project. I am aware that any future receipt of funding for this project automatically terminates authorization for the use of computing facilities granted under this application. I understand that unauthorized use of SDSU computing facilities is a violation of California State Law.
