

CONTENTS

PREFACE	xi
1 UNWRAPPING THE GIFT	1
1.1 The Ubiquity of Computers and the Rapid Pace of Change	2
1.2 New Developments and Dramatic Impacts	4
1.2.1 Amateur Creative Works: Blogs and Video Sharing	5
1.2.2 Connections	8
1.2.3 Collaborative Efforts Among Strangers	13
1.2.4 E-Commerce and Free Stuff	14
1.2.5 Artificial Intelligence, Robotics, and Motion	16
1.2.6 Tools for Disabled People	19
1.2.7 What Next?	20
1.3 An Introduction to Some Issues and Themes	21
1.3.1 Issues	21
1.3.2 Themes	25
1.4 Ethics	28
1.4.1 What Is Ethics, Anyway?	28
1.4.2 A Variety of Ethical Views	30
1.4.3 Some Important Distinctions	34
2 PRIVACY	44
2.1 Privacy and Computer Technology	45
2.1.1 Introduction	45
2.1.2 New Technology, New Risks	47
2.1.3 Terminology and Principles for Data Collection and Use	50
2.2 “Big Brother Is Watching You”	57
2.2.1 Databases	57
2.2.2 The Fourth Amendment, Expectation of Privacy, and Surveillance Technologies	66
2.2.3 Video Surveillance	72

2.3	Diverse Privacy Topics	74
2.3.1	Marketing, Personalization, and Consumer Dossiers	74
2.3.2	Location Tracking	82
2.3.3	Stolen and Lost Data	85
2.3.4	What We Do Ourselves	90
2.3.5	Public Records: Access Versus Privacy	93
2.3.6	National ID Systems	94
2.3.7	Children	98
2.4	Protecting Privacy: Technology, Markets, Rights, and Laws	99
2.4.1	Technology and Markets	99
2.4.2	Rights and Law	105
2.4.3	Privacy Regulations in the European Union	117
2.5	Communications	118
2.5.1	Wiretapping and E-mail Protection	119
2.5.2	Designing Communications Systems for Interception	121
2.5.3	Secret Intelligence Gathering	123
2.5.4	Encryption Policy	127

3 FREEDOM OF SPEECH 143

3.1	Changing Communications Paradigms	144
3.1.1	Regulating Communications Media	144
3.1.2	Free-Speech Principles	147
3.2	Controlling Offensive Speech	149
3.2.1	Offensive Speech: What Is It? What Is Illegal?	149
3.2.2	Internet Censorship Laws and Alternatives	151
3.2.3	Spam	160
3.2.4	Challenging Old Regulatory Structures and Special Interests	166
3.2.5	Posting and Selling Sensitive Material: Ethics and Social Concerns	167
3.3	Censorship on the Global Net	170
3.3.1	The Global Impact of Censorship	170
3.3.2	Yahoo and French Censorship	170
3.3.3	Censorship in Other Nations	172
3.3.4	Aiding Foreign Censors	174
3.4	Political Campaign Regulations in Cyberspace	175
3.5	Anonymity	179
3.5.1	<i>Common Sense</i> and the Internet	179
3.5.2	Is Anonymity Protected?	182
3.5.3	Against Anonymity	184
3.6	Protecting Access and Innovation: Net Neutrality or Deregulation?	186

4	INTELLECTUAL PROPERTY	197
4.1	Intellectual Property and Changing Technology	198
4.1.1	What Is Intellectual Property?	198
4.1.2	Challenges of New Technologies	201
4.2	Copyright Law and Significant Cases	203
4.2.1	A Bit of History	203
4.2.2	The Fair-Use Doctrine	206
4.2.3	Significant Cases	207
4.3	Copying and Sharing	212
4.3.1	Defensive and Aggressive Responses from the Content Industries	212
4.3.2	The DMCA versus Fair Use, Freedom of Speech, and Innovation	217
4.3.3	Video Sharing	219
4.3.4	New Business Models and Constructive Solutions	222
4.3.5	Ethical Arguments about Copying	227
4.3.6	International Piracy	229
4.4	Search Engines and Online Libraries	232
4.5	Free-Speech Issues	233
4.6	Free Software	235
4.6.1	What Is Free Software?	235
4.6.2	Should All Software Be Free?	237
4.7	Issues for Software Developers	238
4.7.1	Patents for Software?	238
4.7.2	Patents for Web Technologies	239
4.7.3	Copyright and Similar Software Products	242
5	CRIME	252
5.1	Introduction	253
5.2	Hacking	253
5.2.1	What Is Hacking?	253
5.2.2	Hactivism, or Political Hacking	263
5.2.3	The Law: Catching and Punishing Hackers	265
5.2.4	Security	269
5.3	Identity Theft and Credit-Card Fraud	273
5.3.1	Stealing Identities	273
5.3.2	Responses to Identity Theft	277
5.3.3	Biometrics	281
5.4	Scams and Forgery	282
5.4.1	Auctions	283
5.4.2	Click Fraud	285
5.4.3	Stock Fraud	285
5.4.4	Digital Forgery	286

5.5	Crime Fighting versus Privacy and Civil Liberties	287
5.5.1	Search and Seizure of Computers	288
5.5.2	The Issue of Venue	290
5.5.3	The Cybercrime Treaty	291
5.6	Whose Laws Rule the Web?	292
5.6.1	When Digital Actions Cross Borders	292
5.6.2	Arresting Foreign Visitors	293
5.6.3	Libel, Speech, and Commercial Law	295
5.6.4	Culture, Law, and Ethics	297
5.6.5	Potential Solutions	298
6	WORK	307
6.1	Fears and Questions	308
6.2	The Impact on Employment	309
6.2.1	Job Destruction and Creation	309
6.2.2	Changing Skill Levels	315
6.2.3	A Global Workforce	318
6.2.4	Getting a Job	325
6.3	The Work Environment	327
6.3.1	Job Dispersal and Telecommuting	327
6.3.2	Changing Business Structures	331
6.4	Employee Crime	332
6.5	Employee Monitoring	335
6.5.1	Background	335
6.5.2	Data Entry, Phone Work, and Retail	336
6.5.3	Location Monitoring	337
6.5.4	E-mail, Blogging, and Web Use	339
7	EVALUATING AND CONTROLLING TECHNOLOGY	350
7.1	Information, Knowledge, and Judgment	351
7.1.1	Evaluating Information on the Web	351
7.1.2	Writing, Thinking, and Deciding	357
7.1.3	Computer Models	360
7.2	Computers and Community	367
7.3	The Digital Divide	372
7.3.1	Trends in Computer Access	372
7.3.2	The Global Divide and the Next Billion Users	375
7.4	Evaluations of the Impact of Computer Technology	376
7.4.1	The Neo-Luddite View of Computers, Technology, and Human Needs	376
7.4.2	Accomplishments of Technology	382

7.5	Making Decisions About Technology	385
7.5.1	Questions	386
7.5.2	The Difficulty of Prediction	387
7.5.3	Intelligent Machines and Superintelligent Humans—Or the End of the Human Race?	391
7.5.4	A Few Observations	393
8	ERRORS, FAILURES, AND RISK	404
8.1	Failures and Errors in Computer Systems	405
8.1.1	An Overview	405
8.1.2	Problems for Individuals	407
8.1.3	System Failures	413
8.1.4	Safety-Critical Applications	422
8.1.5	Perspectives on Failure	423
8.2	Case Study: The Therac-25	425
8.2.1	Therac-25 Radiation Overdoses	425
8.2.2	Software and Design Problems	426
8.2.3	Why So Many Incidents?	427
8.2.4	Observations and Perspective	429
8.3	Increasing Reliability and Safety	430
8.3.1	What Goes Wrong?	430
8.3.2	Professional Techniques	433
8.3.3	Law, Regulation, and Markets	437
8.4	Dependence, Risk, and Progress	442
8.4.1	Are We Too Dependent on Computers?	442
8.4.2	Risk and Progress	443
9	PROFESSIONAL ETHICS AND RESPONSIBILITIES	454
9.1	What Is Professional Ethics?	455
9.2	Ethical Guidelines for Computer Professionals	456
9.2.1	Special Aspects of Professional Ethics	456
9.2.2	Professional Codes of Ethics	457
9.2.3	Guidelines and Professional Responsibilities	458
9.3	Scenarios	461
9.3.1	Introduction and Methodology	461
9.3.2	Protecting Personal Data	463
9.3.3	Designing an E-mail System with Targeted Ads	465
9.3.4	Specifications	466
9.3.5	Skipping Tests	467
9.3.6	Copyright Violation	470
9.3.7	Going Public	471

x CONTENTS

9.3.8	Release of Personal Information	472
9.3.9	Conflict of Interest	474
9.3.10	Kickbacks and Disclosure	475
9.3.11	A Test Plan	476
9.3.12	Artificial Intelligence and Sentencing Criminals	476
9.3.13	A Gracious Host	479

EPILOGUE 487

A THE SOFTWARE ENGINEERING CODE AND THE ACM CODE 489

A.1	The Software Engineering Code of Ethics and Professional Practice	489
A.2	The ACM Code of Ethics and Professional Conduct	495
