Monday evening.

Ann, believe, I was so pleased to receive the Lafayette Promotional program with the clever cover you made. I have tried to decide which of the celestis is you. Is it the one with the mischeeves eyes - or the tall one? Are you glad to be in Chico, swimming and biking with old friends? You do have a new, larger bike now, don't you. I didn't know you were playing the auto harp. Do you enjoy it? What a fine group of musicians in our family. I used to wish your mother, Bob and I could form a trio. It is such fun to have musical evenings together.

There are so many interesting travelogues on TV tonight. I learned that the Mezgin doesn't come out in the Morocco mosque tower to call the people to prayer - instead a record (and loud speaker) is used. Probably you already knew this, since you young people are so well informed. Janey has been stranded in Chicago because of the air plane strike but expects to be home

This week,

I hope you will write and tell me of  
the interesting things you are doing  
this summer and just you are  
having. Much love —

Grandma

How is John Westley?
