Hope you had a merry Christmas, Grandma. We sure did. Thanks so much for the darling stationery. I really love it. I'm sorry Becky and I got confused over what to give you. Well, now you have two sets of stationery that will last you for awhile. Well, I also thank you for the \$10 which will go for a coat. I'm really going to need that coat. I have to write a paper now and fix up all of the mess that I have produced so, thanks again for everything and merry Christmas again.

Love, Ann
