I'm not sure if it's the 9th today but that'swhat I'el put. Today is Friday and it's my day off. (My third day in a row off.) Tonionow work again. It sure wow dbeantifue yesterday morning. It snowed on Wednesday right and it was really neat. It took as about 45 minutes to drive home from church because we had to go about 15 or $20 \mathrm{~m} . \mathrm{p} . \mathrm{h}$. and the road was covered with snow. We were almost the first ones to drive on the snow covered road. Well, this is pretty exciting for me since I have never been in the snow hetrove as much as this. It didnit all melt eithermhich Carolyn said it usually does.

Work io pretty good and I anu getting vela tively better at it. I havens been told what do it all, so that's good. Uonally at first fifty million people would tell me this and that but I can hold my own now. H's bind of too bad too since 1 wite be laving to go to school soon. I got a thing back from Sunda Rosa saying I didn't send nay S. A-T. Scores on transcripts but called Davis to have them send them so I don't know whats holding them up. I'll have to find out already or I may not get aceeptce. Nothing really exciting has happened at work lately except the usual stuff o I dread getting up oft 5 in the mowing or 5.30 to get there on time, but after I get there it's ok. and I doit
er get bored. That's, for sure - 1 found out the at it's the 8 th but now since I'm continuing this the next day it's the $9+h$. I got a call from Erica and she can ne down and went to our Friday right meeting in San Francisco. We were so hurried that I doris know whether of really, how she felt about the church. She liked it at first but I doit know how she took it in the rest. She seemed pretty enthused about it. H's hard for new people at first. We talked about what she hins been doing. I still am not sure how she likes college at Lewis \& Clark. There are 80 many of those so-called "Christians" there that I think if would tron my stomach. I doit see how she puts up with them. Anyway l'll have to talk to her some mow. She could it cone back with the because I had to work and that wouldn't be any fun for her. Well work something outWell it's time for me to go brick to work. Ill hear from you or see yow soon.

Love,
Amine
