Dear Mom and Dad,

I just got your letter yesterday. I was angry to find that the girl who was responsible for turning the book in did not do so yet. I wasn't able to talk to her last night but I gave the message to a friend of hers who said if she didn't get the book that he would go and get it himself and turn it in. He was angry too. She turned in the other book I gave her to turn in. Anyway could you call Eileen and tell her that and that if the library keeps bugging her to pay that I will naturally reimburse her. I will be able to talk to the girl this Friday about it. Hopefully by then she will have turned the book in. Tell her I hope she isn't angry. As far as I know, all the other books that I checked out on Eileen's card are turned in. I really am sorry. Also
(over)

you could tell her I'll write as soon as I can. I'm taking some valuable time out right now in order to write this because as usual I have loads of work to do.

I'm hoping I can get into the nursing program here. I don't know how soon I'll be having an appointment with them. I'm going to see if I can get some people to write letters of recommendation for me. I'm going to see if Ken Wagstaff can do one. If I hurry up and hustle around I may be lucky enough to get into the program for next year which would be nice.

Also, I might take summer school. If I do, I wouldn't be able to make as much money during the summer for school next year. I wanted to know if you would be willing to help pay

for next year's expenses. It will cost \$750 for living at the dorms for the entire year, food and all. I can use some of my savings money for this also. I just don't want you to have to be stuck paying for a lot of it because I may have to go to summer school if I am accepted into the program for next year. I'll have to fulfill some more requirements.

I was glad to be able to see you and the Redlands Moores. Sorry we were unable to come down on Friday. Carolyn had a lot of stuff to take care of in Ukiah and I did too, like getting my drivers license renewed. Your Easter Service sounded good. We had a spectacular service with a big dinner afterwards. It was exciting and energizing for many (over)

who get discouraged easily. Jim filled everyone with hope for the future.

For my birthday I won't be able to come on May 12th although I would like to. We will be in Los Angeles, and I can't miss it because I have to write the healings up but I could come on May 5th. We could have birthday dinner then. What I was thinking that I needed or wanted ~~were~~ two books:

1. was Diet for a Small Planet - by Francis Lappe
2. was The Choice - ~~by~~ the issue of Black Survival in America - by Samuel F. Yette

These 2 books I would really like. They come in paperback so if you decide to get them, don't waste money on hard bound books. Also I need a book bag. I know the kind I want. Maybe I could get it down in Berkeley when I

Come. These are the only things I can think of although I just for fun was wanting a harmonica (I can't find my other one you gave me. I think some child has it.) Anyway, the kind I wanted was or is called a "Blues Harp" - they're pretty cheap and I think they come in a little blue case. If they don't have this kind then don't get one because it's a special kind. (It's different from the other one you gave me, so don't panic.) If you could it would be good just in the key of C or if they don't have that, G. But C is preferable. But again, don't get one unless it's a Blues Harp because they are the kind that the person down here can teach me on. He doesn't know how to play the other kinds. You can get them at any music store. Well I can't think of anything else that

(over)

I really need at the present time, but it sounded like you already got some things, and they will be appreciated. Oh, I do need a pair of panty hose because I don't have any without runs now. Oh, I just remembered that I need a wallet. It doesn't have to be anything special.

Well, classes are doing O.K. I think I'll get an A for sure in Sociology. My Sociology teacher likes me. I have about a B average in Psychology. In English I have gotten a B+ on every single paper I did except for two A-'s. In math I'm hoping I got an A but I might get a B. In Chemistry I have a C average but I'm trying to do better in it. I already told you how I talked to my instructor about it. And in P.E. I'll get an easy A. I talk to all of my instructors. Out of the 6 classes, 4 of them know my name, so that's pretty good. My psychology teacher has so many

big classes that it would be hard for him to remember my name but he knows my face. And my math teacher is kind of a bird-brain and I only had him for 8 weeks anyhow. So school is O.K. I really do like it. I don't mind studying that much. I actually feel like I'm getting smart or something. Anyway at least I like being here. It's more stimulating than working.

Well I must go now. I'll see you on May 5th or actually that Friday night unless I hear different. O.K. Take care,

Love,

Annie
