Please tell me in your next letter
the dates of Beeky's graduation and
Patty's wedding so I can figure out my
schedule. Also - I can get as many
Harriet Tubman pictures as you
want.

Dear Mom and Dad,

I'm out at Sonoma State at the library studying for my big old finals and tests. The next three weeks are going to be a real pain in the butt. You probably won't be hearing too much from me in the next few weeks since I'll be busy studying and finishing up reports. I am almost overwhelmed with the amount of the work I have to do so I'll make this quick.

We all enjoyed being with you last weekend. Chris was sorry that he couldn't come but we had kind of our own birthday celebration already, so that made up for it. Thank you

for all of the presents. They will surely be helpful to me. I have been wearing my new pants and belt all week. Guess what I found. I must have put the wrong record in the album so when I come next time I'll bring your old Hubert Laws records and we can make an exchange.

I'm glad you like Harriet Tubman. Unfortunately \$5⁰⁰ is good enough for one picture. The lady who originally made the picture, had them printed and is selling them as a project to pay for printing and for a black education-

Freedom fund. I think they are worth that much anyway but in the store if sold there, they would probably be more. So for three \$ more, they will cost \$15⁰⁰ or I can take it out of my checking account. This little lady has stated that she will earn \$1000 for The education-freedom fund for blacks and she is really determined. I'm sure she will make it. It's amazing the way many of our senior citizens have come ~~alive~~ and are developing their talents that they may never have done before.

I was at the hospital again last night for clinical experience. My instructor

is really close friends with Marge
Ling, Nancy Ling Perry's mother
and told us about the memorial
service for Nancy that she went to
yesterday. It's funny how my
instructor was calling her a brat
before she was burned and now
they call her just Nancy. I
guess U.S. patriotism and all
that doesn't go too far if it's
your own daughter who is involved.
We have people in our L.A. temple
who live right in the area of
the fire and they said it was
terrible. They were even firing
from helicopters and lit a palm
tree on fire, 60 feet away.
They started shooting practically
before they even hit the house
and didn't even give anyone

a chance to surrender if they wanted.

Well, I have to be going now.
I'll try to write or call sooner
than three weeks but I'll be
pretty busy. Thanks again.

Love,

Ann

Carolyn, Patricia and Chris
Sent their love too.
