

Probably 1977

Dear Mom and Dad, A-1

I Am finding life in the jungle very exciting along with being relaxing. I have been working with the medical staff daily and Am learning many new things about healing wounds and whatever else comes up. We have been using papaya on wounds And I have never seen anything like it. The skin on this womans leg ulcer all grew a layer of skin within one day with the papaya on it. It was truly amazing.

Larry is out here practicing and I have been helping him with examinations and stuff. He has shown me a lot about medicine and I have shown him what I know about wound healing. My experience in the burn unit has helped considerably.

Well I guess it is something else back there in Reno and in California with all the lies in the papers about us. I have seen some of the articles

that some of the people have brought  
 here and they are the most  
 atrocious lies I have ever seen.  
 I guess whenever anyone does anything  
 good - there is someone always trying to  
 destroy it - If they weren't then I would  
 wonder if we were doing right or not. I can't  
 express my delight about being here. I  
 don't know how soon I'll be back but I  
 hope it is later than sooner. You are all  
 welcome to come visit - Grandma & Becky too.  
 You can stay if you want too. I have never seen  
 any place as beautiful as Switzerland  
 mountains here too -
