Pat and Becky Clary  
632 A Street S.E.  
Washington, D.C. 20003

Dear Pat and Boo-Boo,

You meanies! How come you don't write to me? Well, I guess you must be busy. No one will write letters to me. Maybe I did something wrong. I don't owe anyone a letter except for this Terry Tue guy, whom I am afraid to write to because when he called the last time from Berkeley he sounded like he wanted me to be his girlfriend because he said he'd take me out and take me skiing with him. Well, I don't want to go. He's ~~so~~ nutty and I don't want him to think I like him. He's really a nut, like insane and I mean it. All he is interested in is money and parties and Palo Alto, where he used to

Peace On Earth.

live. His parents made him insane because his mother would kick his things when she came to his room and both mother and father are real weird. Well, anyway, so I'd get a letter from him but no one else will send one. Tom Whelan does<sup>n</sup> write from England and I don't mind writing to him so much because I think he knows that I don't like him. He's coming home at Christmas! Bah! His last letter was better than that boring one that he sent during the summer. He sure is a cornball.

I'm going to start tutoring again next week but not in Del Paso Heights. They've closed it down, there, saying that it's too dangerous for us to come over there. I was sorry to hear that because I had lots of little friends over there.

So I'll start tutoring at Jedediah Smith or William Land in Sacramento. I've never been to either of them.

I told you about our softball team, I think. Well, this ~~Thursday~~<sup>Tuesday</sup> is our last game. So far we've lost all of the games we've played. Hopefully we'll win this next game because we almost won the time when we played the same team before. We probably won't ever get dilly bars (which is our prize if we ever win). We will have a special party after our next game. Fun, fun! This softball is a pretty good recreational activity. I really like it.

School is o.k. My American Politics class is pretty good, considering

Peace On Earth.

what it could be. We don't ever use the book and we haven't had to learn all that executive branch, and legislative branch stuff. Physiology is interesting. We are still dissecting cats. Our first one rotted so we had to get a new one and start all over again. We have to learn all these muscles. I know the names of all the bones and the processes, foramina and everything practically already. Muscles are kind of hard to learn. Dissecting cats is kind of sickening after a while. Our new cat is pretty dry and we think he might start rotting soon. I hope he doesn't. They smell really bad when they rot, worse than those potatoes that were rotted in your old apartment.

I like my art classes. Draw and

painting is fun. We had to paint a surrealistic picture, which was fun to do. Now we are doing batiks again. I'm doing something different. You'll see when you come at Easter. My art studio class is fun and I made something for you in it. I think you will like it. P.E. is wild because we are playing hockey. Hockey is a good game but everyone gets so vicious and swings their sticks all over so that they are dangerous. We will start co-ed volleyball next week and that should be fun. Music History is good. Mr. Brunelle is such a good dude. He could make anything sound exciting. Our class only has nine people in it which makes it

Peace On Earth.

really good.

Dick Johnson came a couple weeks ago and spent the night here. He was here for a meeting so I only got to see him at breakfast. He said that his trip back to Denver was good but at one place in Arkansas or Missouri all these weird things kept happening. I still like Dick Johnson, but I like other guys, too. These guys in Eileen's church group (also on softball) are pretty neat some of them.

I have to apply for college and for the Sat. test. I don't know if I want to go to college right after high school. I'd like to work a year and then go. After that, I'd be ready and wanting to go to school maybe. I will apply to either Sac State or San Jose State. San Jose has occupational therapy as

a major. But Sac State has good stuff  
too. I looked at Cal. College of Arts  
and Crafts and S.F. Art Institute and  
I don't want to go to either. They both  
had a bunch of weirdo snob people.  
All the intellectuals from Davis go to  
Santa Cruz. Maybe I should go to San Diego.

Oh Boo-Boo. I don't want to keep  
bugging you but as soon as you  
get time (soon I hope) will you send  
the records? I will need them soon  
for a presentation in Music. So don't  
be in a hurry<sup>so</sup> that you don't wrap them  
careful because broken records are  
no good but if you can wrap them  
and send them soon I will appreciate  
it. I will send both of you  
something good soon, too.

I'm going to get a new guitar

Peace On Earth.

soon and it's going to be a steel string one. I'm ready for a change.

Well, I have to go finish drawing muscles and labeling them. So, you better write and say what you are doing.

Love,  
Annie

Say hi to everybody. Hey, it's almost Chuck and Martha's marriage! Are they all nervous?

~~Do you think~~ Do you think either will chicken out?
